

Ring Sizing Guide

There are several at-home methods to find your ring size, here is one we recommend:

- 1- Wrap string or paper around the base of your finger.
- 2- Mark the point where the ends meet with a pen.
- 3- Measure the string or paper with a ruler (mm).
- 4- Pick the closest measurement on the ring size chart below to find your size.

Things to Keep in Mind:

The ring should fit your finger comfortably. It should feel snug enough so that it won't fall off, but still loose enough to slide over your knuckle with ease.

If your knuckle is bigger than the base of the finger, measure both places and pick a size in between the two.

Keep in mind your finger size changes depending on the time of day and the weather. Your fingers tend to be smaller in the early morning and in cold weather. Also fingers on your dominant hand are usually larger.

Shopping for a Gift? Here are some tips to consider:

If you're shopping for someone else, the best way to find his or her ring size is to ask. If you're planning a surprise, we recommend asking their friends and family first. Keep in mind, the average ring size available for women ranges from size 3 to size 9, with the most common purchased being between sizes 5 to 7.

The average ring size available for men ranges from size 6 to size 13, with the most common purchased being between sizes 8 to 11.
